

AMENDMENTS TO THE ABSTRACT

Please substitute the Abstract in the original specification with the Abstract provided on the attached separate sheet. The amendments to the Abstract are shown below:

Tomato products obtained from tomato juice or tomato passata having the following composition in percentage by weight:

- dry residue 5,5 - 20%,
- water 94,5 - 80%,

100% being the sum of the two components,

wherein the amount of water-insoluble and water-soluble solids in the dry residue ranges in percentage by weight:

- Water-insoluble solids from 18% to 70%_w
- Water-soluble solids from 82% to 30%_w

the The sum of the two components being 100% of the dry residue.
